White: Osman Palos 2390

Black: Mike Sailer 2198

Just a note about Osman Palos. Osman is a Yugoslavia immigrant who now resides in the Chicago area. Palos told me he had two out of the three GM norms needed to be a grandmaster. I didn't completely believe him until I started looking at my old informates and saw that he use to be rated 2460 FIDE. I also was impressed that Palos started out 4 out of 4 in the open section of the NY Open this year before losing to the eventual winner. I also found a crosstable in which Palos finished first in a quick tournament in Chicago ahead of such players as Emory Tate. All things considered, this was my most satisfying victory.

1. d4 Nf6 2. Nf3 g6 3. Bg5 Bg7 4. Nbd2 (I don't think too much of this move. I believe it commits the queenside knight before it needs to be moved. The only advantage to the move is it does pretty much force black to play 4. ... d5, but I don't see any real disadvantage to black for playing this move. I think both e3 and c4 would be better moves with more flexibility.) d5 5. c3 (I hate to be too critical of the opening moves of such a strong player, but I see no reason to play this move at this point when there are still useful developing moves for white to play. Although the move will probably transpose to some main line, there might be some lines in which it is not necessary for white to play this move. Once again, 5. c3 is the more accurate move.) O-O 6. c3 b6 (Some players might wonder why it is necessary to fianchetto the queenside bishop when there are plenty of other squares to develop this bishop such as f5 and g4. My plan was to develop it on b7 to control the critical e4 square. I am also threatening to develop the bishop to a6 and trade off white's powerful light-squared bishop.) 7. Be2 Bb7 8. O-O Nbd7 (It wouldn't be fair for me to criticize my opponents development of his queenside knight to d2 without properly justifying my development of my knight to d7. As I stated earlier, the critical opening fight will be centered around the e4 square. If white can successfully play e4, he would gain the upperhand. If I can successfully prevent my distinguished opponent from playing this move, My prospects of winning will increase.) 9. h3 (I know white played this move to preserve the bishop on g5. I'm not going to criticize the move, although it isn't a move I would play. My personal style is not to waste opening moves just to preserve a certain piece. I normally keep playing productive, developing moves at all costs. I am usually more than willing to allow an opponent to trade off a knight for one of my strong bishops as long as I can gain the initiative in the process. Just a personal preference. I know of many strong players that don't agree with my philosophy.) Ne4 (If I had it to do over again, I would have waited on this move and played something else. All black does is give white something to do. It would have been more advisable to make white force the issue in the center.) 10. Nxe4 de4 11. Nd2 Qe8 (Removing the pin of the c pawn.) 12. f3 ef 13. Bxf3 Bxf3 14. Qxf3 c5 (Black needs to loosen up the center to gain counterplay.) 15. Rae1 e5 16. d5 (This might look like a real powerful move, but it has many drawbacks. Although a protected passed pawn is a tremendous strength in the endgame, it makes for a very inflexible middlegame. Many times, the player with the protected passed pawn is rendered to a defensive game as the other player pushes his pawns up the board gaining counterplay.) f5 (Before white can realize his protected passed center pawn, he will have to deal with my kingside majority. Many players probably figure I'm trying for a kingside attack. Actually, I would push my kingside pawns no matter where white's king would have been. The bottom line is black has the advantage on the kingside, and that is where he must gain counterplay. Obviously, if a mating attack results from such counterplay, I will by no means turn down such an opportunity.) 17. e4 f4 18. Ne4 Bf6 (It has become necessary for black to either activate this bishop or trade it off. If black enters an endgame with this bishop still on g7, white would have a tremendous advantage.) 19. Bh6 Bg7 20. Bg5 Bf6 21. Qg4 (Just a note, if white would have tried to repeat the position a third time, I would have played Bh4. Good or bad, I was 1/2 point out of the lead in the last round and a draw wasn't an acceptable alternative.) Bxg5 22. Qxg5 Qd8 23. Qg4 Rf6 24. a4 (White needs to open lines on the queenside or else he will get crushed on the kingside.) Qe7 25. Nd2 Qg7 26. Nf3 (White is asking for trouble blocking in his queen from escape.) g5 27. b4 Rg6 28. a5 (A horrible blunder by white. Now he loses his queen by force.) h5 29. Qxh5 Nf6 30. Qxg6 Qxg6 31. Nxe5 Qh7 (Black is up a queen for a rook and 2 pawns, but black still has to contend with white's pawns.) 32. bc bc 33. c4 Nxe4 34. Ng4 Kf8 35. Rd1 Nd6 36. Rde1 Qd3 37. Re6 Nxe4 38. h4 Qxd5 (I decided to liquidate the center at the cost of allowing white to crash through on the kingside. Maybe not the most accurate plan, but in all honesty, I couldn't figure out anything better.) 39. Rh6 Qd4+ (I was trying to hold this check in reserve, but the time was right to force white's king to the h file. My strategy in doing this was to make it as uncomfortable for white

as possible to push his h pawn up the board.) 40. Kh1 Kg7 41. Rb1 Nd6 42. h5 Rh8 43. Rg6+ Kf7 44. Rxf5 c4 (This was a difficult stage in the game for me. White has a ton of play against my king on the kingside. However, White has no immediate threats. Unfortunately, I couldn't find any real productive plan for black either. Getting short of time, I decided to remind white that I had a passed pawn I could push down the board as well. All black needs to do is divert one of white's pieces to the defense of this pawn queening.) 45. Re1 Ne4 46. Ne5+ Kf6 47. Nf3 Qd3 48. Rg6 Ke7 49. h6 Kd8 (This was my best plan the whole game. I was getting tired of white pressuring my king on the kingside. White's h pawn is going nowhere and it will take white quite a few moves to reorganize his pieces to the queenside for another onslaught.) 50. Ne5 Qd5 (My centralized queen was starting to make things uncomfortable for white to find good places to put his pieces.) 51. Ne6+ Ke7 52. Ne7 Qh5+ (Black now wins white's knight on e7 by force.) 53. Kg1 Qc5+ 54. Kh2 Qxe7 55. g3 f3 (I know there are better moves, but I was down to a few minutes left in sudden death time control. I saw that the move f3 forced checkmate and I didn't look at any other moves.) 56. Rf1 Qf7 57. Rg4 Rxh6 58. Kg1 Qh5 59. Rg7+ Kc6 60. Rxf3 Qh1 Mate.

Chess Tournament Winners

Forty seven students in grades k-6 played in the first ever chess tournament at Lincoln Elementary School, Fargo, Saturday. Every contestant played five games. A win scores one point and a draw earns 1/2 point.

Tied for first place in the K-3 group were Ivan Ivanav and Robert Thompson, both of Centennial School, Fargo, with 4 1/2 points each.

Jared Wald, Centennial School, Fargo, and Casey Erdmann, Park Christian School, Moorhead, tied for second with 4 points each.

Third place finishers were Anders Johnson, Centennial School, Bismarck, and Paul Huhn, Centennial School, Fargo with 3 1/2 points each.

Ben McLean, Centennial School, Fargo, was the 1st place winner in grades 4-6 with a perfect 5-0 score.

Nathan Mead, Riverside School, Moorhead, and Josh Lunski, Carl Ben Eielson School, Fargo, tied for 2nd with 4 points each.

In 3rd place were Steven Meckle, Ely Elementary, Rugby, ND, and Lee Ryan, Eastwood Elementary, West Fargo, with 3 1/2 points each.

POSTAL PONDERINGS

by John H. Leitel

Instead of just articles on North Dakota chess history, I thought that from time to time we might also have something on postal chess -- about which I have many anecdotes to tell. Shall we start with The Most Anti-Climactic Chess Tournament Ever Held? At least I sure can't think of any other important event in which not a single game was played to a finish!

In the summer of 1954, as the 1947 Golden Knights (then sponsored by the old Chess Review magazine) came to an end, four players were tied for 6th, 7th, 8th, and 9th places. They were to play a double-round tiebreaker for cash awards of, respectively, \$40, \$30, \$25, and \$20 -- very respectable sums back in those pre-inflation days.

The four contestants were Robert R. Coveyou (Oak Ridge, Tenn.), Albert D. Gibbs (Rochester, N.Y.), Kenneth Kraeger (Belle Harbor, N.Y.), and Carl Wehde (Pelham, N.Y.) Gibbs and Kraeger were among the very highest-rated postalites at that time, with Coveyou and Wehde not far behind. Chess fans might have expected many hard-fought battles as these four top experts strove to prove their mettle in national competition.

And yet it didn't quite work out that way. Wehde was the first to depart. "You mean," he thought to himself, "I can get twenty bucks just for saying, 'I quit'?" And since I'm lowest-rated anyway, maybe that's a wise decision." So he withdrew about November of '54 after just a few months' play.

Gibbs was the next to decide that discretion was the better part of valor, withdrawing about June of 1955, perfectly content with 8th prize of \$25 without pushing any additional pawns.

That left Kraeger and Coveyou. They plugged away for a while, but Kraeger too soon stopped writing. Coveyou delayed until about December of 1956 before requesting forfeits, but eventually the games (and the big payoff) went to him by default. Here's the crosstable of this enthralling tussle:

COVEYOU	X X	1 ^f 1 ^f	1 ^w 1 ^w	1 ^w 1 ^w	= 6-0	6th, \$40
KRAEGER	0 ^f 0 ^f	X X	1 ^w 1 ^w	1 ^w 1 ^w	= 4-2	7th, \$30
GIBBS	0 ^w 0 ^w	0 ^w 0 ^w	X X	1 ^w 1 ^w	= 2-4	8th, \$25
WEHDE	0 ^w 0 ^w	0 ^w 0 ^w	0 ^w 0 ^w	X X	= 0-6	9th, \$20

Twelve games scheduled, none completed! Ever seen the like of it before? Even at Mannheim, 1914, they squeezed in some games before war intervened! Wish we could show you a game score from this rousing set-to, but I suppose you understand why we can't: there really weren't any.

Well, at least nobody lost any rating points. More postal ponderings another time . . .

Succeeding rds when games are finished. Peter Thompson will give a workshop on opposite color Bishop endings (no fee) at 9-10 A.M. TD is Roger Buerkle.

USCF -rated Chess Tournament this Summer Grafton, ND

All tournaments in Grafton this summer will be at the Carnegie Regional Library, 49 Seventh Street West -- just a block off the main North-South street of Hill Ave. Entry to the Community Room of the Library is on the North side of the building. The Library is air conditioned and a separate small kitchen provides access to coffee, microwave oven, pop, etc.

Entry fee for all tournaments is \$10.00. USCF and NDCA memberships required and available at the site. Current sudden death rules will apply to the tournaments with sudden death. Digital clocks are the preferred clocks in sudden death. However, analog clocks are still okay.

Saturday, June 28, 1997 -- 1997 North Dakota Open Quick Chess Championship
Time control: G/29. At least 5 rounds will be played if at all possible. There may be more rounds played if there are a sufficient number of entries or double round robin is used. North Dakota residency is NOT required. Registration 9:15-9:30 AM. First 5 rounds would be 10 AM, 11:15 AM, 1 PM, 2:30 PM, 3:45 PM & 5 PM. More rounds possible if entries warrant and players prefer more rounds.

Saturday, July 19, 1997 -- Midsummer Open
Time control: 45/90 & 15/30. rounds at 10-2-6:30. Registration at 9:15-9:30 AM. Other particulars the same.

Saturday, August 16, 1997 -- Grafton Dog Days Open
Time controls: Games 1 & 2 are G/60. Game 3 is G/70 and Game 4 is G/90. Registration is 9:15-9:30 AM. Rounds at 10-1-3:15-6.

All tournaments will be rated full K. The June 28 tournament will provide a separate Quick Chess Rating by the USCF. Thus your regular rating will not be affected by the June 28 tourney.

John Allensworth, Tournament Director, 1438 Fernwood Drive, Grafton, ND 58237.
Phone is 701-352-0352.

*****NOTE FROM DALE SAILER, Secretary/Treasurer*****

Because my home in Grand Forks was recently flooded there might be a delay getting back to anyone who writes. As of 4/25/97 I still haven't been able to get back into my home. I did get out the NDCA chess sets and vinyl boards but didn't get out the clocks. I believe they are ok but won't know until the house can be reentered. The trophy's for the scholastic and the closed were ordered and made up but I hadn't paid for them or picked them up so I will have to wait to deliver them until the trophy shop reopens. This may be an inconvenience but it was unavoidable. John Allensworth will have the NDCA sets in case I can't make the Scholastic or the Closed.
